

## Old UI Design

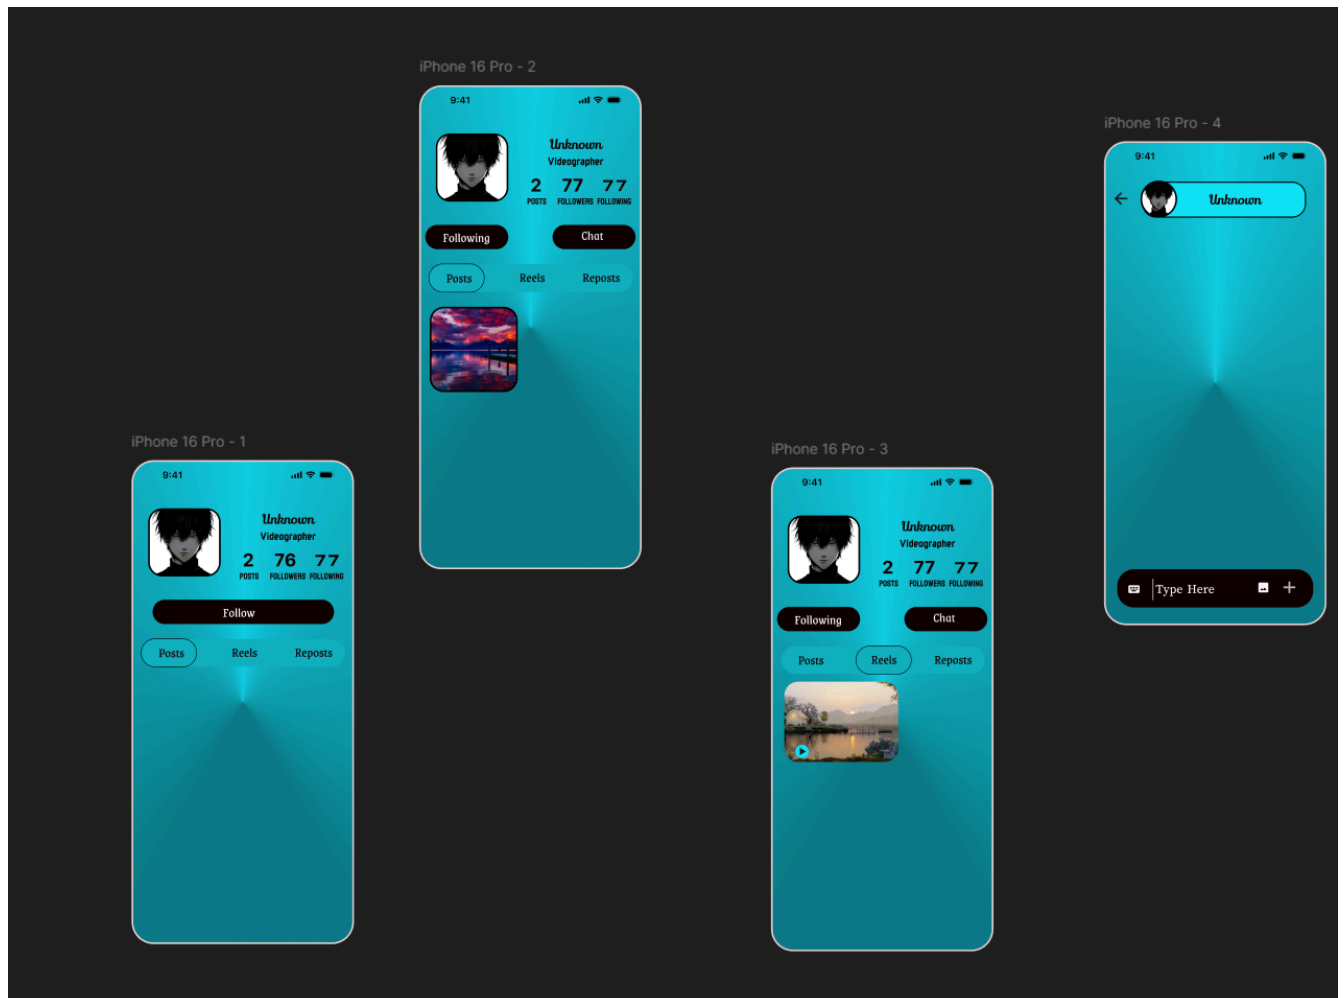

## Features & Drawbacks Identified:

- **Flat & Empty Layout:**
  - o No cover image or visual elements — profile feels plain.
  - o Too much empty space reduces engagement.
- **Missing Profile Details:**
  - o No bio or stats shown.
  - o Hard to understand account activity.
- **Weak Navigation:**
  - o Tabs are not clearly highlighted.
  - o Active section is hard to notice.

- **Low Content Visibility:**
  - Only one post preview shown.
  - No grid — browsing feels limited.
- **Weak Visual Hierarchy:**
  - Important info does not stand out.
  - Typography lacks emphasis.
- **Limited Interaction Options:**
  - Few action buttons (no message/share).
  - No engagement metrics displayed.

## New UI Design

## Features & Enhancements:

- **Gradient & Modern Background:**
  - o A smooth gradient background gives a modern and visually appealing look.
  - o Adds depth and makes the interface feel lively.
- **Enhanced Profile Header:**
  - o Profile section is compact with clear alignment.
  - o Information is organized neatly for quick viewing.
- **Clear Profile Stats:**
  - o Posts, Followers, and Following are displayed prominently.
  - o Improves understanding of user activity at a glance.
- **Strong Call-to-Action Buttons:**
  - o Follow/Following and Chat buttons are clearly visible.
  - o Rounded styling improves usability and visual appeal.
- **Improved Navigation Tabs:**
  - o Posts, Reels, and Reposts are styled as selectable chips.
  - o Active tab is clearly highlighted for better navigation.
- **Better Visual Hierarchy:**
  - o Username is bold and stands out.
  - o Role (Videographer) is shown as secondary information.
- **Engaging Content Preview:**
  - o Media previews with rounded corners look clean and modern.
  - o Content is easy to browse.
- **Interactive Elements:**
  - o Chat screen includes input bar and action icons.
  - o Enhances communication functionality.
